

## WHAT IS IT?

The Local London Green Mayoral Academy is a hub providing opportunities for Londoners to access good 'green' jobs and training. It seeks to engage new employers, attract learners into training and education and see Londoners progress into work placements, employment, or apprenticeships. The Green Skills sector is a key priority, in a bid to transform British industries in line with the Government's Net Zero target of 2050.

The project objectives of the Local London Green Mayoral Academy are:

- To support Londoners into work
- To support underrepresented groups
- To raise the profile of the sector
- To highlight routes into the sector

Local London encompasses the following boroughs: Barking and Dagenham, Bexley, Bromley, Enfield, Greenwich, Havering, Newham, Redbridge, and Waltham Forest.

The colleges in our partnership, who provide the courses attached to the Mayor's Academy, are: Barking and Dagenham College, Barnet and Southgate College, Capel Manor College, London South East Colleges (lead), New City College, Newham College, Shooters Hill College, and Waltham Forest College.

## FOR EMPLOYERS:

Please contact us about the apprenticeships, work experience, and work placements your organisation can offer by emailing [greenskills@lsec.ac.uk](mailto:greenskills@lsec.ac.uk) - we have skilled and enthusiastic individuals looking for these opportunities. We will put you in touch with the college most relevant to your locality or specialisms. If you have a preference of which college you'd prefer to work with, do let us know and we will ensure you have direct contact.

Across the partnership, we run numerous commercial courses designed for professionals aged 19 and above already working in industry. These are intended to help you upskill and widen your professional offering. Please get in touch for more information. Our prospectus, with an outline of some available courses, is soon to be published at [www.locallondonskillsproviders.com/about-us/green-skills-prospectus/](http://www.locallondonskillsproviders.com/about-us/green-skills-prospectus/)

We can also provide employers with the Workforce Integration Network (WIN) toolkit, designed to support employers in addressing labour market inequalities. This is done through a bespoke and tailored Design Labs programme, Inclusive Employer Toolkits, and collaborative working with partners.

## CONTACT US:
